

Position Title: Field Inspectors and Supervisors - Facilities Condition Assessment

SAFNA Engineering & Consulting is seeking Field Inspectors and Supervisors with five (5) years of experience and knowledge in condition assessments/inspections and data collection of buildings at multiple sites. Several areas of focus include:

Building Construction
Parking Structures
Mechanical/HVAC
Electrical
Plumbing

Category: Program Management/Facilities Condition Assessment

Work Location: Los Angeles Area

Start Date: Open Until Filled

Duties:

- Assesses the overall condition and remaining service life of building components based on construction experience and knowledge.
- Identifies and collects building component data on systems installed at County facilities.
- Uses various computer formats to enter data (e.g., Tablets, laptops, Smartphones, etc.)
- Uses knowledge and experience in building construction to identify building systems that are hidden behind walls, ceilings, and floors.
- Works collaboratively with other trade surveyors to gather quantities, measurements, boilerplate information, etc., as needed and directed.
- May supervise the performance of staff and survey participants as needed; serve as a resource to staff.
- Prepare as needed updates and reports as directed by management.

Minimum Requirements

- Five (5) years of full time professional experience in field condition inspection and data gathering on buildings and/or public works projects.
- Graduation from a recognized college or university with a BA or BS Degree in Engineering, Architecture, or Construction Management.
- Candidates without a BA or BS Degree must have at least 8 years of full time experience.

Preferred Requirements:

- Understanding and experience of facility construction and/or public works projects.
- Experience understanding the condition and remaining service life of building components.
